

## Online recording system for managing working time accounts

- Objective documentation of completed working times as well as verification for both employer and employee
- Overview of all staffing time accounts and remaining holiday entitlements for personnel managers and controllers
- Complete staffing documentation
- Differentiated mapping of work patterns that are calculated in a different way, such as working on standby, on-call or on night shift
- Separate calculation for all kinds of overtime

#### Basic module

Cash-strapped times mean that increasingly more companies and organisations are looking for new opportunities to optimise staff deployment whilst at the same time allowing staff a high degree of flexibility in organising their work. We have reacted to the arowing number of customer enquiries: **AB-WorkingTime** software enables the management and documentation of annual time accounts. The program can be

adapted to collective

lection	Details of company structure							
adquarters		Name	0101: Branch office London

The company hierarchy can be displayed at many optional levels.

wage agreements in many respects:

- Individual evaluation of working time completed on-call
- Individual evaluation of working time completed on standby
- Calculation of holiday entitlement from night work
- Automatic calculation of holiday entitlement according to age
- Suitability for companies with 5, 5.5 and 6 day weeks
- Automatic observance of regional public holidays

As it is internet software, AB-WorkingTime only requires a minimum of your administration's system resources. You just need a computer with internet access. Utilising internet software has many advantages over utilising locally installed software:

- Even older PCs can be deployed
- Multi-user capability even without network servers
- Interpreter Mirroring and replicating assures on-going safeguarding of data
- Latest versions of the program are always available
- The risk of investing in software that might prove to be unsuitable once used
- Provide the second s administrators

### We provide a trial access at no charge on request.
